PROFESSIONAL SUMMARY

Results-driven **Senior Product Designer** with **8+ years** of experience designing **enterprise B2B SaaS platforms** across energy, consulting, banking, and digital learning domains. Proven expertise in transforming **complex, data-heavy systems** into scalable, intuitive, and adoption-focused product experiences. Skilled in **UX strategy, workflow simplification, dashboard design, design systems, and AI-enabled product engineering**. Adept at partnering with Product Managers, Engineers, and domain experts to deliver measurable business outcomes through **user-centered design** and **data-driven decision-making**.

CORE COMPETENCIES

- | | |
|-------------------------------------|---|
| • Enterprise SaaS UX Design | • Product Thinking & Strategy |
| • Complex Workflow Simplification | • Dashboard & Data Visualization |
| • Information Architecture | • Design Systems & Scalable Patterns |
| • User Research & Usability Testing | • Cognitive Load Reduction |
| • Cross-Functional Collaboration | • Wireframing & Prototyping |
| • Interaction & Visual Design | • AI-Enabled Product |
| • Agile / Scrum Methodologies | • Figma |
| • Stakeholder Management | • Feature Prioritization & Road mapping |

PROFESSIONAL EXPERIENCE

Senior Product Designer — Energy Exemplar (PLEXOS Cloud)
Enterprise B2B SaaS | Energy Simulation & Market Modelling Platform

Nov 2019 – Present

- Led UX strategy** for migration of legacy desktop simulation software to a **cloud-based SaaS platform**, driving enterprise cloud adoption across utilities, governments, and energy investors.
- Simplified complex simulation configuration workflows**, reducing cognitive load for technical analysts and improving task completion efficiency.
- Redesigned dashboard architecture** to enhance visibility of forecasting insights, modelling outputs, and key performance indicators.
- Partnered with Product Managers** in sprint planning to prioritize high-impact usability improvements aligned with business goals.
- Established scalable interaction patterns** and structured design components, enabling consistent feature growth across the platform.
- Conducted usability sessions** with domain experts to validate workflows, improve task clarity, and reduce friction.
- Improved enterprise client onboarding experience**, accelerating time-to-value for cloud transition users.
- Pioneered AI-Enabled Product Engineering workflow**: mind-dump → structured spec (Markdown) → architecture definition → controlled implementation → iterative feedback loops.
- Applied architecture-first design thinking** by defining personas, workflows, components, and backend considerations upfront, reducing rework and ambiguity.
- Implemented MD-based documentation system** for design specs and change history, ensuring discoverability and cross-team alignment.
- Leveraged controlled AI prompting** for rapid feature breakdowns while maintaining bounded context and security best practices.
- Bridged UX and engineering** by mapping design decisions to data stores, state management, and LLM orchestration concerns.

Senior UI/UX Designer — ZS Associates

Sep 2017 – Jul 2019

Global Management Consulting & Technology Solutions

- **Designed enterprise tools** for consulting, analytics, and commercial strategy solutions across the pharmaceutical and B2B sectors.
- **Improved workflow clarity** for internal and client-facing data dashboards, increasing analyst productivity.
- **Translated complex business requirements** into structured digital experiences through close stakeholder collaboration.
- **Simplified data-heavy interfaces** to enhance decision-making for consultants and end clients.

UI/UX Designer — Capgemini

Oct 2016 – Sep 2017

Banking & Technology Solutions

- **Designed digital transformation interfaces** for banking modernization initiatives.
- **Delivered usability improvements** for compliance-driven enterprise systems.
- **Collaborated with engineering teams** to ensure design feasibility and seamless implementation.

Lead Visualiser — ITAD Learning

Aug 2015 – Oct 2016

Digital Learning & Simulation Platforms

- **Led visual and interaction design** for e-learning platforms and simulation-based training products.
- **Contributed to LMS product development**, enhancing learner engagement and content delivery.
- **Designed gamified learning modules** and enterprise training solutions for B2B clients.

Lead Visualiser — Tata Interactive Systems

Dec 2005 – Aug 2015

Enterprise E-Learning & Simulation Products

- **Designed large-scale digital learning experiences** across education, aviation, banking, and government sectors.
- **Contributed to LMS product development** and gamified module design for enterprise clients.
- **Directed visual storytelling and interaction design** for high-impact training programs.
- **Worked cross-functionally** with instructional designers and technical teams to deliver scalable solutions.

EDUCATION & CERTIFICATIONS

- **Bachelor of Fine Arts (B.F.A)** — Sir J.J. School of Art, Mumbai (Drawing & Painting)
- **HFI-CUA** — Usability Analyst, Human Factors International

KEY ACHIEVEMENTS

- **Award-winning visual storyteller** with strong conceptual thinking and design craftsmanship.
- **Domain expertise** across highly technical sectors including energy markets, banking, and enterprise training systems.
- **Built cross-disciplinary workflows** bridging UX and engineering, accelerating alignment on complex features.
- **Recognized for driving enterprise SaaS adoption** through user-centered design and scalable systems thinking.

RECOGNITION & ACTIVITIES

- | | |
|--|--|
| <ul style="list-style-type: none">• Maharashtra State Exhibition Tata Learning Disability Forum• Bombay Arts Society Exhibition• Best Title – Film 'Taare Zameen Par' Prize of effort DIGICON Japan• Camlin Award• Best Title – Film or TV "Taare Zameen Par" Golden Cursor Awards• Best social welfare short film "Happy Planet" FICCI Frames Award 2008• Best short film "Happy Planet" Third Prize DIGICON 6+3 Japan 2007 | <ul style="list-style-type: none">• Clay Modelling workshop for TATA Interactive Systems employee introduce clay medium as art of model making.• Clay Modelling workshop in Pune for animation students.• Clay Modelling workshop in Whistling Wood Institute for animation students.• Clay modelling workshop in ARENA Animation Indore, Madhya Pradesh. |
